

Baktolan[®] protect⁺ pure

Innovative water-in-oil-in-water (w/o/w) lotion for protection against aqueous solutions and for regenerating care at the same time of dry, highly stressed skin.

Baktolan® protect+ pure

Advantages at a glance

- innovative formula (W/O/W emulsion)
- protects against water-soluble substances
- promotes the skin's regeneration and strengthens the skin barrier
- excellent skin compatibility
- prevents skin irritations that might be caused by wearing gloves
- significantly reduces skin irritations
- fragrance- and silicone-free
- no impairment of the wholesomeness of food (HACCP assessed)
- free of silicones and preservatives
- free of parabens

Application

Baktolan protect+ pure is a fragrance-free water-in-oil-in-water lotion, combining the properties of a quickly absorbed O/W formula and a protecting and maintaining W/O formula. The containing bisabolol in its formula supports the skin regeneration and strengthens the natural protective function of healthy skin. Baktolan protect+ pure is easily spread and quickly absorbed without leaving an unpleasant greasy film on the skin.

Baktolan protect+ pure acts in three ways:

- promotes the regeneration of stressed skin
- has a high protective effect when working with aqueous solutions
- strengthens the skin barrier

Areas of application

Baktolan protect+ pure is used where highly stressed or even chapped skin needs to be regenerated and the skin barrier strengthened. At the same time, Baktolan protect+ pure protects the skin when performing tasks with aqueous solutions. In addition to that, Baktolan protect+ pure counteracts skin irritations that might occur by wearing gloves. Even for the food processing industry, the HACCP assessment ensures that there is no impairment of food consumability.

Baktolan protect+ pure is particularly suited for the daily application:

- in clinics and medical practices
- in nursing and geriatric care
- in chemical, pharmaceutical and food processing areas
- in utility departments
- in cleaning services

Directions for use

Apply a small amount of Baktolan protect+ pure and rub it into clean, dry hands. Pay particular attention to the areas between the fingers and the nail beds.

Baktolan protect+ pure can be used under gloves to counteract skin irritations that may arise through occlusive conditions.

In addition to skin protection, Baktolan protect+ pure can be used for the care of normal skin as well as or stressed or chapped skin.

Composition

Aqua (Water), Paraffinum Liquidum, Isopropyl Palmitate, Cetearyl Alcohol, Polyglyceryl-2 Dipolyhydroxystearate, Propylene Glycol, Cetearyl Glucoside, C 12-15 Alkyl Benzoate, Stearic Acid, Bisabolol, Petrolatum, Hamamelis Virginiana Water, 1,2-Hexanediol, PEG-30 Dipolyhydroxystearate, PEG-40 Stearate, Caprylyl Glycol, Tropolone, Alcohol

Compatibility with hand disinfection products

Studies about hygienic hand disinfection acc. to EN 1500 show that the efficacy of BODE hand disinfection products Sterillium, Sterillium classic pure, Sterillium med and Sterillium Virugard, is not influenced by the previous use of Baktolan protect+ pure.

Compatibility with examination gloves

Studies following the EN 455-1 show that previous use of Baktolan protect+ pure does not increase the perforation rate of gloves made out of nitrile, latex and vinyl. Studies following the EN 455-2 show that previous use of Baktolan protect+ pure does not impair the tear strength of gloves.
